Youth Services

Independent Living Skills

Whether it's developing a budget, finding employment, becoming a volunteer, learning to use mass transit or any other personal goal, we offer individualized trainings that enhances or maintains a person's independence. We also have a wellness gym and computer lab to assist in your own personal goals.

Advocacy

It is important to make your voice heard and create the change you want to see. We offer services for personal and systems advocacy.

Transition

We support people to live in the communities of their choice, whether it's moving from your parent's house or transitioning from school to adulthood. During the summer we offer a series of summer programming for students with disabilities between the ages of 14 and 29 that focus on pre-transition and transitional services. In addition, we have many programs that revolve around young adults, parents with disabilities, and parents with children who have a disability.

Peer Counseling

The support of a peer is both powerful and meaningful, we incorporate peer support in all of our services.

Information and Referral

We maintain a database of local resources that range from housing to legal assistance.

Additional Independent Living Services

We offer additional services that depend on partnerships with the community and funding availability.

For more information on all of our programs listed here and those not listed, please visit our webpage at www.disabilitylink.org
